Now available at a student rate of \$36*

Public Health Reports (PHR) is an informative and accessible resource for practitioners, teachers, and students of public health. The Journal provides important research and key discussions on the major issues confronting the public health community:

- Up-to-date information on disease prevention, health promotion, public policy, and interventions
- Articles on contemporary issues such as tobacco control, immunization, civilian preparedness, drug policy, lead screening, Native American health, tuberculosis control, occupational disease injury, and environmental justice
- Original, peer-reviewed research and public health practice articles, as well as thoughtful commentary
